Python
Git

EXPERIENCE

Creative Director & UX Designer

PITCH Storylab | August 2021 - Present

Worked with clients to iteratively develop and implement marketing solutions involving everything from designing logos and brand imagery to developing websites to storyboarding and producing animated videos.

UX Design Intern — Employee Digital Experience Team

Mastercard | May 2021 - Aug 2021

Researched, wireframed, and prototyped two wide-reaching employee-facing web applications with guidance from experienced UX designers. Collaborated with a team of interns to conceptualize an award-winning product line. Received overwhelmingly positive feedback on my performance and work.

Teaching Assistant — Full-stack Web Development Course

Code Platoon | May 2020 - Aug 2020

Provided training in full-stack web development to a class of 20 military veterans. Collaborated with a team of faculty and proactively expanded my role into marketing and graphic design. Consistently received positive feedback from students and instructors.

Writing Consultant — Engineering, Design & Communication

Duke University | August 2019 - February 2021

Guided small design teams during weekly meetings to develop their written communication and presentation skills. Presented my research on assessing undergraduate engineers' communication skills at the National IWCA Conference in 2019.

SELECTED PROJECTS

Brand Identity, Product, Packaging, & Web Design

COSMOS Loyalty Program | July 2021 - August 2021

A luxury product-family that establishes Mastercard's presence in the growing space tourism industry while providing customers a uniquely aspirational offering. Lead the ideation process and generated the brand identity as well as all personas, wireframes, animations, and other visual design elements. Winner of Mastercard's Global Intern Design Challenge in 2021.

Project Management, Web Development, & Brand Identity Design

PLANter Web App | August 2020 - October 2020

An interactive program for growing produce at home. Managed a 10 person team through the design and development process and produced wireframes, a brand identity system, and interactive demos. Developed the frontend of the site using Javascript and the React framework.
